

AND WE'RE BACK!

We are back for another season of Summer of Sailing! We are so excited to be able to focus on sailing and the love of the sport instead of worrying about COVID-19. And while COVID presented all of us with difficulties, setbacks, and losses, it opened our eyes to different ways to approach our lives, work, and even sailing. We adapted with new procedures and protocols last summer that have carried us through a full year of practices and internal regattas. All during this, we were able to keep smiles on our faces and our boats in the water.

As we head into this summer season, grateful and positive for the last year, we are excited to be able to nurture sailors at all ages to developed the skills of not only a good sailor but a good athlete. This season will also be more about the fun, experiences, and friendships that are created. If we can meet those goals the results will follow.

We will still keep many of the protocols that we implemented last year, such as drop-off/pick-up turn around, separate spaces for gear, practice social distancing, and disinfecting at the end of the day. We will also continue wearing masks and do pre-screening before entering camp.

We are extremely grateful and thankful for the community and staff that we were able to create this last year and look forward to curating and growing that this year. We look forward to an amazing Summer Season with a great crew.

We believe that if you make sailing fun, enjoy the time on the water, enjoy your family and friends, and do not solely focus on preparation and results, kids will become lifelong sailors. We are looking forward to a summer filled with practice, hard work, and many memories.
